## ***Introduction To Scent Work***

**Terry McCauley & Joan Conner**

The sport of Scent Work is based on the work of professional detection dogs used to detect a wide variety of scents and substances. In AKC Scent Work, the dog searches, locates and indicates to the handler the hidden odor. Birch, anise, clove and cypress are the odors used. The four types of searches are container, interior, exterior and buried. Terry McCauley, a Scent Work judge and instructor will address training and competition. Joni Conner and her dog will demonstrate how the search is done.

### **Join us for Hospitality!**
